

ARJUN MEHTA

Full Stack Engineer

arjun.mehta@email.com | +91 99887 76655 | Bangalore, India | github.com/arjunmehta

PROFESSIONAL SUMMARY

Full Stack Engineer with 4 years of experience building scalable web applications using Python, React, and SQL. Proficient in REST API design, Docker containerization, and Git version control. Experienced in Agile development environments with a strong foundation in system design principles.

WORK EXPERIENCE

Full Stack Developer

Infosys Ltd, Bangalore | 2022 – Present (2 years)

- Built and maintained REST APIs using Python FastAPI serving 50K+ daily requests
- Developed responsive React.js frontend components with Redux state management
- Designed and optimized SQL schemas for PostgreSQL databases handling large datasets
- Containerized microservices using Docker reducing deployment time by 40%
- Collaborated in Agile sprints using Git branching strategies and code reviews
- Integrated AWS S3 and EC2 for cloud-based file storage and hosting

Junior Software Developer

Wipro Technologies, Pune | 2020 – 2022 (2 years)

- Developed Python Flask backend services for internal enterprise tools
- Created dynamic React components consuming RESTful APIs
- Wrote complex SQL queries and stored procedures for reporting dashboards
- Maintained Git repositories and participated in daily Agile standups
- Deployed applications on Linux servers and monitored system performance

Software Intern

TechSpark Solutions, Bangalore | 2019 – 2020 (1 year)

- Built full stack web features using Python and JavaScript
- Assisted in database design and SQL query optimization
- Contributed to frontend UI development using React basics

SKILLS

Python — 4 years

JavaScript — 4 years

REST APIs — 3 years

Git — 4 years

Linux — 2 years

React.js — 3 years

SQL — 4 years

Docker — 2 years

Agile — 3 years

AWS — 1 year

EDUCATION

B.E — Computer Science Engineering

Visvesvaraya Technological University, Belagavi | 2016 – 2020

PROJECTS

E-Commerce Platform — Python + React + PostgreSQL

- Built full stack e-commerce app with cart, payments, and admin dashboard
- Designed REST APIs with FastAPI, React frontend, and PostgreSQL database

Real-Time Chat App — React + WebSocket + Docker

- Developed real-time messaging with WebSocket and React
- Containerized entire stack using Docker Compose

CERTIFICATIONS

- AWS Certified Cloud Practitioner — 2023
- Meta React Developer Certificate — 2022
- Docker Certified Associate — 2023
